JAMES CAMPBELL,	RICHARD VAUX,
JOHN H. MICHENER,	THE MAYOR OF THE CITY

Executive Committee.

PRESIDENT AND CHARMEN OF ALL STANDING COMMITTEE

THE
TWENTIETH ANNUAL REPORT
OF THE
DIRECTORS OF CITY TRUSTS.

To the Legislature of the Commonwealth of Pennsylvania, the Councils of the City of Philadelphia and the Board of Appointment, composed of the Judges of the Courts of Common Pleas of the County of Philadelphia.

THE DIRECTORS OF CITY TRUSTS respectfully present their Twentieth Annual Report, for the year ending December 31, 1889.

Mr. James R. Gates and Mr. William M. Smith, having been respectively re-elected Presidents of Select and Common Councils, remain with us as ex-officio members of the Board.

In the month of April, William Henry Rawle, Esq. died. Although Mr. Rawle had been but a few years with us, his

uniform courtesy had won for him the regard and respect of his fellow members, and his remarkable accomplishments and devotion to his duties, rendered him a most valuable member of the Board. Appropriate resolutions adopted in relation to his loss, were entered on the minutes, and a copy of them sent to his family.

On June 3d, Mr. John H. Converse was appointed to fill this vacancy.

The year just closed is remarkable as the most prosperous in the history of the Residuary Fund (Girard College Endowment) of the Girard Estate; not only is the aggregate gross income the greatest ever collected, but each of the three great divisions of the estate, the Philadelphia real estate, the real estate outside of Philadelphia, and the personal estate, shows returns greater than ever before.

Real estate within the city yielded in 1889, \$396,302.86, the greatest heretofore reported being \$390,542.66, in the year 1876.

Real estate without the city returned \$526,616.09. The greatest amount received heretofore was \$514,180.74, in 1883.

The personal estate yielded \$95,218.67. The largest return heretofore made was \$95,118.92, in 1886.

The total revenue in 1889 was \$1,018,137.62; in 1888, which exceeded all previous years, it was \$942,466.89.

The income of the Fund for the Improvement of the Eastern Front of the City has also shown a considerable increase, yielding \$44,062.73, a sum greater than any previously reported.

A marked feature in the business of the year has been the large investments aggregating over half a million dollars. In detail these were,

Residuary Fund, \$270,000.00, of which \$11,900.00 is a rein-	
vestment	
Del. Ave. Fund, 110,000.00, "	6,100.00 is a rein-
	vestment
Minor Trusts, 198,105.61	163,826.50 is a rein-
	vestment
Total, 578,105.61	\$181,826.50 is a rein-
	vestment.

Almost the whole of these investments were in Mortgages and Ground Rents, amply secured and yielding between four and five per cent. per annum.

The details of capital, income, investments and expenditures of the Girard Estate, are set out in the report of the Superintendent, annexed. (*Appendix A.*)

GIRARD ESTATE WITHIN THE CITY.

Since our last report was published, the six store buildings at Twelfth and Market streets, then in the course of erection, have been completed at a total cost of \$477,183.27. In addition to the leases then reported, Nos. 1120-22 Market street has been rented to Messrs. Hood, Bonbright & Co. (John Wanamaker), and Nos. 1124-26 to Messrs. R. J. Allen, Son & Co. The two stores Nos. 1128-30 and 1132-34 Market street are still vacant.

IMPROVEMENT OF THE EASTERN FRONT OF THE CITY AND REMOVAL OF WOODEN BUILDINGS.

During the past year Front street and Delaware avenue, between Vine and South streets, have been lighted with the Electric Light, and the public streets and alleys within these

limits, east of Front street, have been cleaned, and such portions of the street pavements as are not kept in order by the railroad companies occupying them, have been put in thorough repair. Payments have also been made for the removal of a number of wooden buildings. The income of this fund has of late years far exceeded the amount expended. This excess of income has been invested, and has so augmented the original endowment that taking the stocks and loans of which it is composed at their par value, the amount now held, is \$902,100.00. Its market value exceeds one million dollars.

The Board has had under consideration a proposition to expend a considerable portion of this fund in the building of granite bulkheads along Delaware avenue. This apparently would have been a great and valuable improvement, but it was found that the work could not be done without shortening some of the docks, already inadequate to accommodate a modern steamship, and it was consequently abandoned. With the removal of Smith's and Windmill Islands and the moving eastward of the Port Wardens' line, an opportunity to widen Delaware avenue, and build the proposed bulkheads, will be afforded. Then, the accumulation of income may be properly expended for this purpose.

GIRARD ESTATE WITHOUT THE CITY.

Although larger amounts of coal have been shipped from the property of the Girard Estate, in Schuylkill and Columbia counties in previous years, notably in 1879, when 1,622,728 $\frac{1}{2}$ tons, were sent to market; yet the royalty per ton, in 1889, being greater than that of any previous years, has more than offset this decrease in shipments, and the income from the 1,292,508 tons of this year has never been equalled in the history of the trust. This unprecedented return from our

coal property, is more remarkable in view of the fact that the anthracite coal shipment of Pennsylvania is 2,738,007 tons below that of 1888.

An interesting incident in the year's business is the operation started under lease from the Estate, by Theobald and Kester; their work being that of gleaning from the culm banks on the John Alexander Tract, merchantable coal which they hope will be sufficient in amount to make the operation a paying one. Although the plant is not yet complete, a few (1309) tons of coal have been reclaimed and shipped to market. The large amount of good coal lying in the waste heaps in all parts of our property, makes any experiment to recover it of special interest to the Girard Estate, and it is hoped that the business of the coming year will show a handsome return to these enterprising operators.

A carefully prepared map of the Girard Estate in Schuylkill and Columbia Counties and the surrounding properties, has been furnished by our Engineer and is published as a frontispiece to this report.

A fifth Farm-house and barn have been erected in the Catawissa Valley, and good tenants secured for Farms No. 1 and No. 4, which were vacant when our last report was printed.

The planting of forest trees, on the water shed of Lost Creek, has been continued, 20,000 Larch, 1,000 Russian Mulberries and 1,000 Catalpas having been set out in April.

A statement in detail of the transactions of the Estate in the coal region, is annexed (*Appendix B.*)

GIRARD COLLEGE.

It is with great pleasure that we report to you the continued prosperity of the College.

The number of pupils on the 1st of January was	1368
Admitted during the year,	202
	— 1570
College indentures cancelled,	162
Indentured as apprentices,	3
Discharged at 18 years of age,	3
Died,	4
Expelled,	20
	— 192
Present number,	1378

During the year, in compliance with Mr. Girard's requirement, that "should it unfortunately happen that any of the "Orphans admitted into the College shall from mal-conduct "have become unfit companions for the rest and mild means "of reformation prove abortive, they shall no longer remain "therein," we have been compelled to discharge an unusually large number of boys for whose reformation the officers of the College have long been ineffectually striving. The President of the College reports "the removal from the College of idle "and vicious boys has improved the general morals of the "institution, made discipline easier, and teaching more "effective."

The total number of admissions to the College since the opening in 1848 to December 31, 1889, is 4,224. The number of boys now on the roll waiting for admission is 314; of these, 305 are from Philadelphia and other parts of Pennsylvania, and 9 from other States. A new school building will be completed in February which will permit the introduction of two hundred more boys.

This new building is a marble structure, conforming in architecture with those recently erected. It is three stories high, two stories containing school rooms, the third floor finished as two large rooms to be used for two or more

classes to meet for purpose of instruction or entertainment, and the basement arranged as play rooms. The dimensions of the building are ninety-six feet four inches by one hundred and thirty-eight feet six inches.

Extensive additions have also been made to the Laundry, rendered necessary by the immediate and prospective increase of the number of pupils.

Our schools, conducted in accordance with the course of study directed by the founder of the College, present little variety or subject for comment. They are conducted to our satisfaction, and the President of the College reports "an increased fidelity and efficiency on the part of teachers and officers. This is shown in a kindlier relation between teacher and taught, and a close attention to the individual needs of the boys."

In regard to Mechanical Instruction, the Committee having special charge of this department, at the meeting of the Board in December, reported as follows:—

"The Committee has sincere satisfaction in reporting that the success of this department of Girard College is believed to be assured. The influence for good on the pupils attending the instruction given in the various branches of mechanical knowledge is recognized both by them and also by the lines of employment thus opened to the pupils on their leaving the College. Public appreciation of the benefits of this department of Girard College is evidence of both its importance and its advantages."

This is supplemented by the report of the President of the College that "the increased demand for our boys, is evidence that employers appreciate the training which the institution gives. Instead of having on hand a large number of graduates waiting for positions, as was the case a few years ago, we now rarely have more than half a dozen

" boys who remain to complete the prescribed course of " studies."

As this subject is at this time of peculiar interest in our community and State, we add some extracts from the report of the Superintendent of Manual Training:—

" Mechanical Drawing.—Many creditable drawings have " been added to the rapidly increasing portfolios of this " school, and numbers of drawings made by the pupils have " been taken out by them as exhibits to friends and speci- " mens of what they are able to do in applying for situations, " a feature that has good effect in stimulating a boy to put " in his work his best efforts. Defects, if any, pointed out " by disinterested critics are likely to prove profitable.

" Wood Working.—This branch following Mechanical " Drawing, when patterns for castings are to be made, fixes " in the boy's mind the meaning of his drawing, and as time " and practice go on, he will feel that to undertake to make " patterns without drawings is rather too doubtful; thus im- " pressing him with the importance of making correct draw- " ings from which he may make his work.

" Pattern work for the foundry always demands the best " skill of wood-workers, and like accuracy displayed in other " branches of wood-working will make desirable apprentices.

" An extension of studies in this department that will em- " brace stair building, window-sash, blind and frame making, " door making and door hanging, fitting of locks and hard- " ware, wainscoting and washboard fitting, turning of newel " posts, columns and ornamental designs, in short, inside " finishing of dwellings is practicable here with some addi- " tional expenditure.

" Foundry and Blacksmithing.—The foundry continues to " supply the finishing shop with such castings as are re- " quired.

"Finishing Shop.—The eagerness with which boys in "general go to this department, especially boys in higher "classes who have advanced to figures in the curriculum, "where they can see in the most attractive forms the results "of progressive advancement in the use of metal-working "tools, is gratifying alike to teachers and pupils."

Of the boys leaving the College during the year 1889, about fifty-seven are engaged in mechanical or kindred employment; many of the others obtained employment as clerks in counting-houses, banks or stores, and seven secured places as stenographers and type-writers.

The boys seem to derive great advantage physically, from the military drills and gymnastic training, as well as from the invigorating exercise afforded by the manual training school.

The interest in the Sunday Chapel services continues. The speakers are all laymen of high character, whose addresses attract, interest and impress the boys.

In October, Admiral Brown de Coulston, of the French Navy, and his staff visited the College. They were courteously received by Mr. Michener, on behalf of the Board of Directors, and by the President of the College.

The delegates to the Pan-American Congress also visited the College on Sunday, November 10th and were welcomed by the President of the Board and the President of the College. They were present at the Chapel exercises, and heard the address of Judge Willson, after which, General Bolet Paraza, a delegate from the Republic of Venezuela, made an interesting speech to the boys, in most excellent English. They were afterwards shown through the dining hall, the dormitories of Building No. 8, the Mechanical School Building, and other objects of interest in the College.

Interesting and eloquent addresses were made to the boys in the chapel by Ex-Governor Hoyt, on New Year's Day, and

by General Hastings, in the dining hall, on the Anniversary of Mr. Girard's birthday, to the pupils, alumni and guests. A list of the officers of the College, of the distinguished scholars, and much other information in relation to the College will be found in *Appendix C.*

MINOR TRUSTS.

No new trusts having been created during the year, the number of the Minor Trusts remain as last reported, thirty-four. The endowment of these vary in amount from one hundred dollars to nearly half a million dollars. Their aggregate endowment is \$1,005,889.86. Their purposes, with the amounts of endowment, are:—

For the relief of the indigent blind and lame, . . .	\$438,966 96
To relieve and make more comfortable the sick and insane poor in the Almshouse, . . .	77,958 33
Toward the maintenance of a House of Correction,	3,000 00
For the benefit of sufferers from yellow fever, . . .	12,500 00
For use of the Overseers of the Poor or the Managers of the Bettering House, . . .	300 00
For loaning to young married artificers, . . .	102,400 00
For premiums and medals to ingenious men and women who make useful inventions, . . .	44,700 00
For medals for distinguished gradutes of the Girls' High School,	1,100 00
For meritorious pupils in the Girls' Normal School,	190 00
For School purposes,	13,925 00
For bread and soup for the relief of the poor, .	15,215 67
For fuel for the relief of the poor (under various restrictions),	295,633 90
Total,	<hr/> \$1,005,889 86

For the Wills Hospital the year has been one of unprecedented good fortune as regards charitable bequests, legacies to the amount of over \$30,000 having been paid into our hands. These kind remembrances of friends of the Hospital are of great service in providing for the support of poor afflicted people, many of whom would otherwise have to suffer without hope of relief.

As Trustees for this noble charity, we have moreover to record a disappointment which is in some respects a calamity to persons suffering from diseases of the eyes. The Board of Public Charities, having visited the Hospital and been impressed with its great usefulness, not only to our own citizens but to persons from all parts of the State, who come there for gratuitous relief and support while undergoing treatment, promised that they would again recommend an appropriation by the Legislature on its behalf. Having received this aid in the past, we, perhaps too confidently, relied on its continuance. As far as the recommendation of the Board of Public Charities and the approval of the Legislature were concerned, the application was successful, but the Governor, for reasons satisfactory to himself, the propriety of which we do not question, thought proper to veto the bill, thus depriving us of \$20,000 which we had counted on receiving. The number of patients registered at the Hospital as receiving dispensary attention in 1889 amounted to ten thousand one hundred and four, an increase over last year of six hundred and eighty-five.

Many of the applicants for treatment come from distant parts of the State, and are too poor even to pay for the plainest kind of accommodations while undergoing treatment, hence they must either be taken into the house and supported at our expense until the course of treatment is completed, or else return to their homes without receiving the benefit of the treatment at the Hospital. Our limited income, permitting

the admission of only about fifty patients, requires us almost daily to turn away from our doors those whose only hope of saving their eyesight lies, perhaps, with us. For several years past, aided by appropriations from the State, we have been able to maintain about sixty patients, but in 1889 when the expected aid failed, we were forced to reduce the number of beds to less than forty-five. This reduction falls most heavily upon those applicants who reside at a distance from this city, as many of those living in Philadelphia can live at home while receiving treatment at the clinics. In this connection the surgeons report to us:—

"In the Hospital are ample accommodations for one hundred patients. In the early part of the year sixty patients could find beds in the wards, but later the number was reduced to forty, owing to the lack of an expected appropriation from the State. This was a great drawback to our usefulness, for we had often to turn worthy applicants from our doors. Of the number admitted to the Hospital nearly one half were not from the city of Philadelphia, and we would earnestly urge the assistance of the State in the care of her disabled citizens."

It may be asked why we do not use the liberal bequests to which we have referred. Unlike many of the other Hospitals in the city we have no annual subscriptions, and are forced to rely for support solely upon the income of our invested funds. We are compelled, therefore, for the present at least to capitalize such bequests as we receive, and we most earnestly recommend to those who are seeking to make good use of their wealth the "Wills Hospital for the Indigent Blind and Lame."

The legacies received in 1889 were from:—

Mrs. Hannah C. Flickwir (\$2,500, received in 1888.) balance,	\$2,500 00
William B. Smith (\$200, less collateral inheri- tance tax),	190 00
Miss Mary M. Colhoun,	27,587 96
Total,	\$30,277 96

The income of the fund endowed by Miss Mary Shields, "to relieve and make more comfortable the sick and insane 'poor at the Almshouse,'" has been expended in finishing the new kitchen (begun in 1888), supplying a pleasing variety in the diet, furnishing books, games, rolling chairs, etc., and in fitting up the meeting room of the insane department. This latter improvement was made so late in the year 1889, that the bills therefore do not appear in the statement of receipts and expenses.

Under the will of John Scott, medals and premiums have been awarded to the following inventors:—

Hamilton T. Castner, . . .	Castner Sodium Process.
A. A. & Geo. E. Marks, . . .	Improvements in Artificial Limbs.
Thomas Shaw,	Mine Inspectors' Gas Testing Appa- ratus.
Roman Abt,	System of Railways for Steep In- clines.
Thomas A. Edison,	Mimeograph Duplicating System and Apparatus.
C. Herschel Koyl,	Parabolic Semaphore.
Otis C. White,	Adjustable Extension Movement in Ball and Socket Joints.
James Atkinson,	Improvements in Gas Engines.
Richard L. Maddox,	Substitution of Gelatine for Collo- dion in Photography.
Chas. A. Teal,	Improvements in Portable Hoists.
W. Leigh Burton, M. D.,	Electric Heater.

- Alex. C. Chenoweth, . Method of Laying Continuous Electrical Conduits.
 Chas. McIntyre, . Improvement in Electric Wire Connectors.
 Jas. S. MacCoy, . Pneumatic Tool.
 Dorr E. Felt, . Comptometer.
 John B. Root, . Spiral Weld Tube.
 T. Van Kannel, . Improvements in Storm Doors.

The Hannah M. Dodd Medals were awarded in June last to Miss Helen M. Dodge and Miss Mary Fenimore, distinguished members of the graduating class of the Girls' Normal School.

Income of the various Fuel Funds amounting to \$6,012.10 was distributed in the winter of 1888-89 in accordance with the terms of the wills creating the trusts, in the shape of one thousand two hundred and seventy-one and a half tons of coal as follows:—

	Tons.
Thomas D. Grover Fund,	310
Elias Boudinot "	359
Spring Garden "	30½
Stephen Girard "	26½
Paul Beck "	92
City Fuel "	71
F. A. Sheaf "	22½
Jacob J. Snyder "	110
Mary Shields "	58½
Esther Walters "	83
David Claypole "	6½
M. McMahon "	4
James Dutton "	51
George Emlen "	39½
B. W. & J.W. Morris "	7½
 Total	 1,271½

In addition to the above fuel, \$1,219.70 was distributed in bread and soup, mostly through the agency of the various Soup Societies. In detail this was from:—

Thomas D. Grover Fund,	.	\$300 00
Paul Beck	"	500 00
A. R. Chambers	"	108 00
Samuel Scottin	"	12 00
William Carter	"	28 80
A. Thompson	"	270 90
Total		\$1,219 70

Under the direction of the will of Juliana H. Good, \$152.48 was expended for books for the library of the House of Correction, and under the will of Ann Armitt, \$23.00 for chairs for use in the Almshouse. The income of Mr. Girard's legacy for School purposes was expended to the amount of \$588.92, for books for the libraries of the Public Schools of the Fifth, Sixth, Seventh, Eighth, Ninth and Tenth Wards.

It gives us great pleasure to testify to the continued faithfulness and intelligence of the salaried officers of the Trust, by whose assistance, the various charities committed to us have been administered.

By order of the Board,

W. HEYWARD DRAYTON,

President.

PHILADELPHIA, Dec. 31, 1889.

GEO. E. KIRKPATRICK,
Superintendent Girard Estate.

OFFICE OF THE GIRARD ESTATE, Philadelphia, Dec. 31, 1889

APPENDIX B.

REPORT OF ENGINEER
OF GIRARD ESTATE
IN SCHUYLKILL AND COLUMBIA COUNTIES.

APPENDIX B.

MESSRS. LOUIS WAGNER, JAMES CAMPBELL, WILLIAM B. MANN,
ALEXANDER BIDDLE, JOHN H. CONVERSE, JOHN H. MICHENER,
WILLIAM M. SMITH, *Committee on the Girard Estate without the
City of Philadelphia.*

GENTLEMEN :—

THE total anthracite coal shipment of Pennsylvania for 1889 is $35,407,710\frac{5}{26}$ tons, which is a decrease of $2,738,007\frac{1}{26}$ tons below that of 1888, but an increase of $766,692\frac{1}{26}$ tons over that of 1887, which was the largest prior to 1888. The anthracite coal production continues to increase, but for the last five years it has been at a less rapid rate of increase than in any similar period in its history, excepting that which followed the business depression of 1874.

The product sent to market from the Girard Estate in 1889 was 1,292,508 tons, the largest in five years. The collieries making an increased production were :—

Girard Colliery, which shows an increase of	71,624 tons.
West Bear Ridge Colliery, "	70,939 "
East Bear Ridge Colliery, "	50,329 "
Packer No. 5 Colliery, "	9,131 "
Packer No. 4 Colliery, "	6,141 "
Knickerbocker Colliery, "	4,157 "

Those whose production was maintained at about the same rate as in the preceding year, or fell more or less short of it, were William Penn, Kehley's Run, Hammond, North Ashland, Packer No. 2 and Packer No. 3 collieries. Continental Colliery continues idle. The coal under lease to S. H. Barrett has not yet

been opened. North Ashland Colliery was compelled to lie idle for five months by the loss of its breaker, which was destroyed by fire on the 31st day of January, 1889. The new breaker, built upon the site of the old one, was finished and started to prepare coal on July 9, 1889.

The collieries on the Girard Estate are capable of a largely increased production during the year before us; but, as mining operations are very liable to be interrupted, not only by flood and fire and accident incident to their own management, but from causes outside, it will be prudent to count upon no greater output for the coming than that of the present year.

The tables, showing the production of each colliery for the present year and for each year of its history and the gross income of the same, the details of the present condition and the future plans of the different collieries and a brief account of the revenue from lot, farm and timber leases, of farm improvements erected, township roads made and repaired, forest trees planted and taxes levied, are given in the following pages under their appropriate headings.

ANNUAL PRODUCTION OF THE SEVERAL COLLIERIES OF THE GIRARD ESTATE.

MINING OPERATIONS.

LEASE NO. 1.—HAMMOND COLLIERY.—*Philadelphia and Reading Coal and Iron Company, Lessee.*—The extension of the slope in the Mammoth bed to its full depth, three hundred feet below the first level, was completed on the fifteenth day of February. A tunnel was driven immediately southward from the foot of the slope to the Top-split of the Mammoth seam and gangways were extended two hundred yards east and west in both Top and Bottom-splits. The Bottom-split is seventeen feet thick and the Top-split thirteen feet with ninety feet of sandstone, conglomerate and slate between. In addition to the work of opening gangways on the new level, a pumpway, travelling-way and airway have been driven; a pump-house, commodious and safe from fire and the pressure of the strata, is being excavated in the bottom rock of the seam near the slope, in which will be placed a large pump to hoist direct to the surface. Since September the coal has been hoisted from the new level, the coal from the upper workings being sent down by a counter chute. The production has fallen twenty-seven thousand seven hundred and ninety-eight tons below that of the preceding year. The coal now produced comes from the dead work of opening the new level, the removal of pillars in the Holmes and Buck Mountain seams on the first level, and from similar work in the old Conner colliery workings in the Buck Mountain seam above water level, nearly one-third of the production coming from the latter source. The increased length of hoist of coal and water, emphasized by the experience of the present year with its floods of rain, has necessitated an increase of steam capacity, to meet which, twelve new boilers of new and large standard (thirty-four inches in diameter by forty-three feet in length) will be added, the foundations for which are now building.

Tunnels are proposed on the new level from the Mammoth to the Holmes, Primrose and Buck Mountain seams. It is not probable that the work of opening the new level can be completed in time to materially increase the production before another year.

LEASE No. 2.—GIRARD COLLIERY.—*Philadelphia and Reading Coal and Iron Company, Lessee.*—The method of mining coal here is different from that in use everywhere else, being controlled by the peculiar geological formation. The lease covers both sides of a narrow basin, with steep dips of from sixty to seventy degrees. The coal of the Mammoth bed, near the surface, has been exhausted and the present operations are in the synclinal axis of this seam. The permanent gangways are driven on the south side of the basin in the Skidmore seam, which lies eighteen yards under the Mammoth. From these permanent gangways, tunnels are driven northward into the Mammoth basin one hundred and seventeen yards east and seventy-eight yards west of the slope, and beyond these, other tunnels every two hundred yards dividing the run into sections Nos. 1, 2, 3, etc., east and west of the slope.

Gangways are driven from these tunnels, either in the centre or on the bottom rock on one or both the north and south dips of the Mammoth bed, from which breasts are opened and the coal mined out in each section independently of every other section. The pressure from the weight of loose measures above, upon the gangways and airways, chutes and breasts, is very heavy necessitating the use of large pillars in gangways and breasts to keep the workings open, even while mining over the first time. In some places the stump pillars, which are left from the gangway up to the opening out of the breasts, are thirty yards, which is three times the ordinary size. Even with the extraordinary precautions taken, the crush is very great, lifting the gangway in places as much as three feet above its original level. Two sections have now been opened on each side of the slope, in the opening of which, four gangway tunnels and four air-tunnels were driven from the Skidmore to the Mammoth bed.

The heavy rains throughout the year seriously embarrassed mining operations. For nearly the whole month of June the gangways were under water, and at other times the whole steam power at command was required to hold the water from filling the gangways. Nine new boilers (thirty-four inches in diameter and forty-three feet long) have just been set, to which nine more will be added as soon as they can be put in place.

The production of next year should largely exceed that of the year now closing.

LEASE No. 3.—NORTH ASHLAND COLLIERY.—*Philadelphia and Reading Coal and Iron Company, Lessee.*—On the thirty-first day of January, between three and four o'clock in the morning, North Ashland breaker was discovered to be on fire, and in an hour was totally destroyed. When first discovered, the fire, which had started in the engine room at the bottom of the breaker, had reached the top of the breaker. Repairmen who were on the ground state that they were engaged in cutting sheet-iron and other work outside when the fire occurred, but had been in the breaker under the screens, and in the engine room, with lighted lamps, but a short time before. The fire is supposed to have been ignited by a spark from the lamp of one of the men, although there is nothing known regarding its origin. The debris of the fire was immediately cleared away, and active steps were taken to rebuild. Some difficulty was encountered in obtaining timber by reason of the floods in May and June, but on the ninth day of July the new breaker was completed, and the colliery resumed work. The new breaker is well built, with its tip higher than the old breaker, its pitch better, and with shafting and power placed well back under the breaker. The small coal coming from the mines wet, partly cleaned at the slope, is sent to the counter screens by a separate chute, thence to the jiggling machines, of which there are six of the Clark patent, placed with all appliances for washing coal on one side of the breaker. It has iron troughs from the bottom of the broken-coal chute and automatic scrapers for carrying the broken coal, when so desired, up to special steel-toothed rolls to

be used only for breaking this coal into egg, stove and chestnut sizes. The breaker is well planned, and constructed to run with the least possible labor, has abundant light, roomy picking space, and is heated with steam. While the breaker was rebuilding, the slope platform and cleaning-chutes, which are a mile distant from the breaker, were remodeled and repaired and four new boilers (thirty-four inches in diameter and thirty-six feet in length) were added to the steam power for the slope engines, pumps and fans. A thousand yards of gangway were driven, all in the Buck Mountain seam. The Mammoth workings of the present level east of the slope are exhausted. Some coal, however, still comes from these workings at the western end of the lease. It is proposed to sink, immediately, a new slope in the Mammoth bed to the barrier pillar in the synclinal axis of the basin, which will be somewhat less than a hundred yards in length, below the present level. This slope will be placed in the second breast of the old water-level gangway, three hundred and fifty feet from its mouth and conveniently near to the breaker. Three new boilers (thirty-four inches in diameter and forty-three feet in length) have recently been placed here, and three more will be added to this number shortly, to furnish steam for the new slope. The production of this year is much smaller than it would have been but for the destruction of the breaker by fire, but the development of fresh coal has been so long deferred that the production of the years immediately preceding the present cannot be maintained.

LEASE NO. 4.—PACKER NO. 2 AND PACKER NO. 4 COLLIERIES.—
Lehigh Valley Coal Company, Lessee.—PACKER NO. 2 COLLIERY continued in active operation during January. In February all work was suspended and the colliery remained idle for six months. From August to the close of the year a small shipment of about nine thousand tons was made each month. Four lifts are open in the Mammoth, Top-split and Holmes seams. Work will be prosecuted on the upper levels and in the Holmes and Top-split seams. The colliery is capable of making a large yield.

PACKER NO. 4 COLLIERY has extended its slope in the Buck Mountain bed from the fifth to the sixth level and is now down one hundred and fifty-five feet below the sixth level. Five hundred yards of gangway have been opened in this seam on each of the fourth and fifth levels, beside three hundred yards of new gangway in the Four Feet and Holmes seams. In addition to this, the west workings in the Mammoth bed, which could not be kept open under the heavy pressure upon them and were allowed to close some years ago, are now being re-opened on the third and fifth levels. The Mammoth bed still yields about two-thirds of the total product. The production of this year shows an increase of six thousand one hundred and forty-one tons over the year preceding.

The total length of new gangway opened in the two collieries covered by the lease has been twenty-five hundred yards, and the coal sent to market from the lease two hundred and three thousand one hundred and eighty-eight tons.

LEASE No. 5.—CONTINENTAL COLLIERY.—*Lehigh Valley Coal Company, Lessee.*—Mining operations, suspended in January, 1885, have not yet been resumed. The usual repairs of gangways, airways and slopes, and the pumping necessary to keep the workings clear of water, continue to be maintained.

The explorations to prove the condition of the Buck Mountain seam were continued in January. The third hole bored with the diamond drill from the bottom rock of the Mammoth bed above breast No. 85 of the old workings on the east of the slope, cut that seam in good condition and twelve feet thick.

LEASE No. 6.—PACKER NO. 1 AND PACKER NO. 5 COLLIERIES.—*Lehigh Valley Coal Company, Lessee.*—PACKER NO. 1 COLLIERY, which comprises the upper lifts of the lease, still hoists its coal through the No. 1 slope, a mile east of the Packer No 5 breaker, and sends it over the surface to be prepared in this breaker.

The tunnel from the Mammoth to the Holmes seam, connecting more intimately the two collieries, which was commenced in

September, 1888, was finished in March, 1889, and has already four hundred yards of gangway opened from its northern end in the Holmes bed.

In addition to this, six hundred yards of gangway were opened upon the eastern part of the lease in the Top-split, Mammoth and Buck Mountain seams.

PACKER NO. 5 COLLIERY has extended its gangways on the shaft and counter levels in the Holmes, Mammoth and Buck Mountain beds eighteen hundred yards, has driven tunnels from the Mammoth on the counter level to the Holmes and to the Seven Feet seams, striking the latter at the head of the plane, and thus opening the way for the transportation of the coal of these three seams to the surface without breaking bulk from the breast to the breaker.

The main western gangway in the Mammoth bed continues in the rolling measures encountered a year ago, which are a serious embarrassment to the development of the colliery production. The West Buck Mountain gangway, which was turned south and east by the anticlinal axis encountered a year ago, has continued its eastern course three hundred yards and will now doubtless hold that direction until it meets the synclinal axis folded in the south side of Bear Ridge.

The production, 129,644 $\frac{1}{2}$ tons, though the largest ever made from this lease, is capable of being much increased the coming year.

LEASE NO. 7.—WEST BEAR RIDGE COLLIERY.—*Philadelphia and Reading Coal and Iron Company, Lessee.*—The long suspension of mining operations at this colliery came to an end on September 1, 1888, when this and East Bear Ridge Colliery united in sending their coal to be prepared to West Bear Ridge breaker, now called by the lessee Bear Ridge Colliery. Some new gangway was driven on the north side of the basin, both in the Mammoth and Buck Mountain seams, but the greater proportion of the coal produced came from the old workings on both sides of the basin. Beside the floods of rain which gave the pumps more work than they could do, the colliery was threatened with all the water made

by Stanton Colliery on the Gilbert estate, with which it is connected on the first level by a gangway driven over the line in the early history of these collieries. The lessee having withdrawn from Stanton Colliery, the pumps were taken out and the mine-workings of that colliery were allowed to fill with water. Although it seemed probable that the water would find its way across the basin into Lawrence Colliery before it would rise high enough to flow over into West Bear Ridge Colliery, yet as that could not be determined with certainty, it was deemed best to sink a shaft upon the old connecting gangway, now closed, and obtaining access to it, seek a suitable place for the erection of a brick and cement wall to hold the water back in Stanton Colliery, or if that could not be obtained, pump the water from that point to the surface without allowing it to go to the deep workings of West Bear Ridge Colliery. Fortunately before the shaft was sunk to any great depth and before the water rose high enough in Stanton Colliery to flow over into West Bear Ridge Colliery, it forced its way across the basin into Lawrence Colliery, upon which, under an agreement between the Gilbert Estate and the lessees of Lawrence Colliery, the latter drove tunnels across the basin and are now pumping the water of both Stanton and Lawrence Collieries.

During the year 1889 ten new boilers were placed in West Bear Ridge Colliery (four, thirty-four inches in diameter and thirty feet long, and six, thirty-four inches in diameter and forty-three feet long), and the foundations of six more of the larger size are now building. Three new pumps were added to the old equipment, one, a fourteen inch Allison patent on the first level, and two of the lessees' standard make, thirty-eight inch stroke and nine inch cylinder, on the second level.

The Buck Mountain gangways on the north side of the basin will be pushed ahead, with the coal from which and from the old workings of the Mammoth bed the production will be easily maintained at its present rate.

LEASE NO. 8.—EAST BEAR RIDGE COLLIERY.—*Philadelphia and Reading Coal and Iron Company, Lessee.*—The outcrop of the

Mammoth bed at the eastern end of the lease on the top of Bear Ridge was stripped of its surface covering and a considerable quantity of coal obtained from this source early in the year. A new counter gangway was opened on the east side and two tunnels were driven in search of the Top-split of the Mammoth bed, one of which was stopped in hard conglomerate rock one hundred and thirty-five feet south of the Mammoth, and the other, one hundred and forty feet in a seam of confused coal, seventeen feet thick, with a north dip of sixty-eight degrees.

The Buck Mountain gangways have been extended six hundred yards, and an inside slope in the Mammoth bed, located one hundred and twenty-five feet west of the old Girard Tunnel and now down one hundred and twenty feet below the gangway, is sinking to test the depth to which the coal extends.

A thousand yards of gangway were driven during the year. The present production may be maintained without difficulty.

LEASE NO. 9.—WILLIAM PENN COLLERY.—*William Penn Coal Company, Lessee.*—This Colliery maintains its place as the largest producer on the Girard Estate; its shipment this year being two hundred and seventy-eight thousand seven hundred and twenty-two tons and four hundredweight, the third largest in its history. Its operations continue in the Mammoth, Top-split, Holmes and Buck Mountain seams, above water-level, and on three lists below water-level. Of its four thousand yards of new gangway opened this year, half were in the Mammoth, Top-split and Holmes, and half in the Buck Mountain and the greater proportion still above water-level. A large territory, in which the Mammoth bed lies upon a slight dip, and without rock cover, was stripped of its alluvial covering with a steam shovel. The mining of this coal will be commenced next year. A tunnel, to open the Buck Mountain seam on the first slope-level below the shaft and located two hundred yards west of the slope, was commenced in October and has now reached a point one hundred and fifty feet under the Mammoth bed.

An extra large pump was placed on the second slope-level and a column pipe from it extended up to the shaft-level. There is every prospect of a large production for the year before us from this colliery.

LEASE No. 10.—KEHLEY'S RUN COLLIERY.—*Thomas Coal Company, Lessee.*—The abundance of coal furnished by the Top-split of the Mammoth and the seams under the Mammoth, along with the coal obtained by the reopening of the old Mammoth gangways, on the first slope-level and by stripping operations upon the out-crop of the Mammoth bed, have supplied the colliery with sufficient coal without any contribution yet from the second slope-level. By reason of the over-production in the previous year and the mildness of its winter, the dullness of the coal trade was extreme in February, March and April, during which months the colliery was worked at less than one-half of its capacity. For the balance of the year, however, the trade was somewhat more active and the production for the whole year foots up a hundred and nine thousand two hundred and forty-six tons. A tunnel was driven from the Seven Feet bed to the Mammoth, by which workings in that seam, which had closed down ten years ago, were reopened. A new sump was driven in the Skidmore seam and connected with the pumps and columns without disturbing them. Six new boilers were added to the old plant. A larger production may be made next year.

LEASE No. 11.—PACKER No. 3 COLLIERY.—*Lehigh Valley Coal Company, Lessee.*—The restriction imposed upon all production affected the yield from this colliery also, though its shipments reach a hundred and thirty-six thousand three hundred and thirty-six tons and seventeen hundredweight. Its operations have been on the second, third, fourth, fifth and sixth levels, and in the Mammoth, Seven Feet and Buck Mountain seams. In the Mammoth bed all gangways were extended upon first opening to their lease limits, and are working backward. In each of the other two seams four hundred yards of new gangway

were opened on the second and fourth levels. On the sixth level a tunnel was started from the Mammoth to the Buck Mountain bed, which is now driven four hundred feet. It has already passed through the Skidmore and Seven Feet seams, upon the latter of which some forty yards of gangway have been opened. A large pump has been added to the equipment on the seventh level, from which a column pipe has been extended to the second level. A six-inch steam pipe has been placed in the vertical hole, bored last year, from the surface to the second level, connecting the boilers on the surface with the pumps on that level, and thence carried in the slope to the pumps on the seventh level. The breaker is now undergoing some repairs, and is having an addition built to it, to be furnished with machinery for the preparation of the smallest sizes of coal. The present production may be maintained without difficulty.

LEASE No. 12.—SOUTH LAUREL RIDGE COLLIERY.—*Simmons H. Barrett, Lessee.*—The small fixed rental upon this lease is still paid by the Lessee, while its coal remains unopened, awaiting a convenient opportunity for its development.

LEASE No. 13.—KNICKERBOCKER COLLIERY.—*Philadelphia and Reading Coal and Iron Company, Lessee.*—The quantity of coal mined by the Lessee in the extension of his workings into the Girard Estate, is five thousand nine hundred and sixty tons and eight hundredweight.

LEASE No. 14.—HARRISON COLLIERY.—CULM BANKS ON THE JOHN ALEXANDER TRACT.—*Joseph Theobald and John A. Kester, Lessees.*—The increasing popularity of, and demand for the Pea and Buckwheat sizes of anthracite coal has not only stimulated the invention and practical application of methods of separating these fine coals from the other refuse, which formerly went altogether to the refuse banks, but has led to the reworking of many of these old banks.

You have had before you numerous offers of royalty for the privilege of reworking the culm banks at the different collieries, which have for the time been declined. As the coal in them is not at all benefited by being allowed to lie exposed to the action of the elements, but is liable to be set on fire, covered with other refuse expensive to remove, and to be washed into the streams and lost, it is desirable that they should all be reworked at as early a date as possible. The culm banks on the John Alexander tract, which came from the first mine workings on the territory now covered by the Hammond Colliery lease and from the lands adjoining, were leased on the fifth day of June to Theobald and Kester, who have erected a building and furnished it with engines, screens, scrapers, jiggling and other machinery, and have called it Harrison Colliery. The plant is not yet completed, though a few tons of coal were shipped in each of the last three months of the year. The total shipment and per centages of the different sizes were as follows :—

	Tons.	Cwt.	Percentage.
Buckwheat	689	16	52.7
Pea	431	01	32.9
Chestnut	120	14	9.2
Stove	67	17	5.2
Total	1308	08	100.0

TIMBER LEASES, on the Alexander Gibson and James Chapman and parts of some other tracts, from which it seemed desirable to cut the timber, returned an income of sixty-eight hundred and eighty-three dollars and sixty-nine cents (\$6,883.69).

LOT LEASES AND FARM LEASES, yield a return of thirty-seven hundred and seventy-two dollars and six cents (\$3,772.06).

GIRARDVILLE TOWN LOTS, sold some years ago, paid in instalments of purchase money and interest on mortgages, twelve hundred and thirty-eight dollars and fifty-four cents (\$1,238.54).

FROM MISCELLANEOUS SOURCES, RENTAL OF WATER PIPES,
SALES OF STONE, SAND, ETC., thirty-six hundred and forty-five
dollars and three cents were received (\$3,645.03).

FARM IMPROVEMENTS IN THE CATAWISSA VALLEY.—FARM No. 5, the fourth on the Joseph Evans tract, was laid out between farms No. 1 and No. 4. A new road was opened to avoid the steep hill of the old road, upon a light grade around the southern face of the hill. A neat cottage dwelling, barn and out-buildings were erected, nine acres of land were cleared around the latter and planted in grain. Water pipes were laid from the same spring which supplies farms No. 3 and No. 4, and a supply of water was carried to the new house and barn. An orchard of choice fruit trees was planted on farm No. 4. New tenants, William J. Kerstetter and John J. Haldeman, were obtained for farms No. 4 and No. 1, respectively. No. 5 farm will be leased as soon as an acceptable tenant can be had. The improvements contemplated for next year are the building of a new barn and out-buildings on No. 1 farm (Haldeman's), an addition to the barn of No. 3 farm (Zeller's), the opening of a new road from the Joseph Evans tract across the Thomas Davidson tract to Girard Manor upon a more direct and shorter line and on an easier grade for hauling heavy loads between our farms and the railroad station, the erection of a new farm on the Davidson tract and the building of a house and barn and other farm buildings thereon.

FOREST TREE CULTURE.—The ground rising from Lost Creek to the north and forming its water-shed on that side was further cleared of brush, fallen timber and logs, and planted with young shoots of forest timber from the nursery. Twenty thousand *European Larches*, one thousand *Russian Mulberry* and one thousand *Catalpas* were set out in April. Twenty thousand *Larches* have been ordered which will be placed next spring contiguous to and east of the plantation set out last spring.

TAXES.—The rates of taxes for this year have been about the same as for several years past, excepting that the special road taxes of Conyngham and Butler townships have been discontinued, the debts for which they were imposed having been paid in full. The roads of Conyngham, Butler and West Mahanoy townships were made and kept in repair as heretofore, by the tax payers without any tax levy.

In the following table, which shows the rates of tax levied in each township and borough during the year 1889 and the total Girard Estate taxes at the rates levied for this and the preceding year, the voluntary assessments made by the tax payers upon themselves and expended in the care of the public roads are counted as road taxes regularly levied.

Township or Borough.	Road or Borough	Special Road.	School.	County.	Poor.	1889, Total Mills.	1889, Total Tax.	1888, Total Mills.	1888, Total Tax.
Conyngham ..	5 mills.	14 mills.	2½ mills.	18 mills.	32½ mills.	\$2,958 12	36,80 mills.	\$3,258 90

Total Tax							\$40,065 10		\$40,659 81

MAP OF THE GIRARD ESTATE IN SCHUYLKILL AND COLUMBIA COUNTIES.—Attached hereto is a map showing the exterior limits and interior tract lines of the Girard Estate, the county, townships and borough lines, the limits of coal measures and the location of collieries, railroads, township roads and streams. I have extended this map eastward to the Lehigh River and southward to the head waters of the Schuylkill, and included a considerable territory north and west of the Estate, for the purpose of showing its position in relation to other known points.

To Mr. S. H. Kaercher, the resident Solicitor of the Estate, I am under obligation for valuable counsel; and to Mr. E. C. Wagner, Assistant Superintendent, who attends to the making of surface leases, the collection of lot and farm rents, the repair of roads and the care of timber lands; and to Mr. William G. Gwyther, Mine Inspector, and his Assistant, Mr. John B. Gran-
ger, who regularly visit, inspect and report upon the progress and condition of all mining work, I am indebted for most faithful assistance in the care of the business of the Estate.

Very respectfully yours,

HEBER S. THOMPSON,
Engineer Girard Estate.

POTTSVILLE, PA., December 31, 1889.

GIRARD WATER COMPANY.

Messrs. LOUIS WAGNER, President, and JAMES CAMPBELL, JOSEPH L. CAVEN, W. HEWARD DRAYTON, WILLIAM B. MANN,
Directors of the Girard Water Company.

GENTLEMEN:—

THE reservoirs of the Company have been full to overflowing from the beginning to the end of the year. In the first quarter the rainfall was much below the average, but during the eight months following, the rainfall was excessive, in one month (November) being over ten inches and *for the whole eight months* being fifty-eight inches and three quarters, or thirty per cent greater than the average annual rainfall of the State. The total rainfall of the year is 70.27 inches.

The average annual rainfall here for the five years from 1883 to 1887 was 47.12 inches. The rainfall of 1888 was thirty-three per cent. greater than this, and of 1889 forty-nine per cent. greater. The monthly rainfall for this and the two years preceding was as follows:—

	1889.	1888.	1887.
January,	3.80	3.50	5.03 inches.
February,	1.66	3.45	5.32 "
March,	2.77	4.35	1.32 "
April,	7.23	3.29	3.13 "
May,	6.93	7.08	3.65 "
June,	8.01	6.50	6.52 "
July,	9.46	3.34	3.51 "
August,	6.03	8.58	8.79 "
September,	6.50	8.18	3.41 "
October,	4.41	4.83	1.16 "
November,	10.16	4.90	1.98 "
December,	3.31	4.62	4.91 "
Total,	70.27	62.62	48.73 inches.

A table giving with more detail the rain and snow fall of the year is attached hereto, which has been prepared by Mr. E. C. Wagner, Superintendent of the Girard Water Company, who is also the local observer for the Franklin Institute's Department of Meteorology for the State of Pennsylvania.

The excessive rains of May 10th to June 1st did not come with their full force upon the eastern part of the State, but were greatest upon and in the vicinity of the highlands of the Allegheny Mountains in the central part of the State.

The bursting of the dam on the South Fork of the Conemaugh river on the first day of June, and the rush of its water along with the torrents already pouring down upon Johnstown from Stony creek and other tributaries of the Conemaugh, their damming back by the lodgement of debris against the stone bridge below, and the overwhelming of the town by these combined floods, with the loss of thousands of lives and destruction of millions of dollars' worth of property appalled the country, and led not only to a searching inquiry into the cause of the bursting of this reservoir, but to examinations of all other reservoirs and to the adoption of measures to secure safety against every possibility of danger from a similar cause.

In common with all others interested in water works, we sought to improve the lesson of this disaster, although our water works drain so small a territory (between one and two square miles) that it is not probable any such rush of water will ever come upon them as that which came upon the Conemaugh works. However, to make assurance doubly sure, the wasteway of our No. 2 reservoir was increased in width from forty to sixty feet and the embankment raised from four to seven feet above the wasteway. The wasteway of the distributing reservoir, No. 1, was also increased in width, the embankment raised three feet and the discharge pipe from the No. 2 reservoir, higher up on the stream, extended to throw its water into the stream below the No. 1 reservoir when desired.

During the times of heaviest floods the greatest depth of water flowing over the No. 3 reservoir wasteway was nine-tenths of a foot, the eighteen inch discharge pipe through the bottom of the

embankment being open at the same time. At this time also, which was before the increase in the width of the wastewater, the depth of water flowing over the No. 2 reservoir wastewater was one foot and two-tenths.

The clearing of the water shed on the north side of Lost creek of dead timber and brush, and the setting out of forest trees, has been continued by the Girard Estate. Twenty thousand European Larches, one thousand Russian Mulberries and one thousand Catalpas were planted in April.

Theobald and Kester, who have leased the culm banks on the John Alexander tract from the Girard Estate, were furnished with a supply of water for steam and washing coal during the last three months of the year. The quantity of water supplied to collieries on the Girard Estate and on other lands, to Girardville Borough and for domestic purposes was one hundred and three million eight hundred and ninety-six thousand nine hundred gallons, as follows:—

Girardville Borough,	25,737,034	gallons.
William Penn Colliery,	21,310,819	"
Girard Colliery,	10,937,256	"
Bast Colliery,	10,662,740	"
Packer No. 5 Colliery,	9,870,608	"
Hammond Colliery,	7,322,920	"
Packer No. 1 Colliery,	4,975,846	"
Packer No. 2 Colliery,	4,692,578	"
Lehigh Valley Railroad,	3,783,534	"
Packer No. 4 Colliery,	1,797,444	"
Harrison Colliery,	1,636,624	"
Houses at Lost Creek,	1,169,497	"
<hr/>		
Total,	103,896,900	gallons.

The largest monthly consumption (in September) was 10,246,403 gallons.

The smallest monthly consumption (in April) was 6,395,925 gallons.

The average rate of water rent upon all the water furnished this year is eight and eight-tenths cents per thousand gallons.

Very respectfully yours,

HEBER S. THOMPSON,
General Manager.

Levering, William C.	Jan. 15, 1876	Dec. 27, 1883	7.81	6.21
Lindsay, David A.	July 17, 1875	June 9, 1883	8.90	7.69
Livingstone, Harry C.	Jan. 8, 1871	April 29, 1879	7.05	7.01
Lockett, Charles H.	Mar. 13, 1874	June 3, 1882	7.14	8.07
Lofving, James	Mar. 16, 1873	Jan. 3, 1882	8.47	9.51
Lynn, James	May 26, 1873	Jan. 3, 1882	8.45	8.47
McBride, Daniel W.	Feb. 27, 1874	Jan. 25, 1882	8.07	7.55
McAllion, James	April 28, 1874	Feb. 14, 1882	8.37	9.04
McCusker, Terence	May 3, 1874	Oct. 20, 1881	7.88	9.50
McGarvey, Archibald	Feb. 5, 1873	Dec. 25, 1881	7.98	7.69

TWENTIETH ANNUAL REPORT OF THE

FOURTH SCHOOL.

Name.	Born.	Admitted.	Scholarship.	Conduct
McLachlan, William E.	Sept. 3, 1874	Jan. 25, 1882	8.53	9.41
McMackin, James	Aug. 2, 1873	Jan. 3, 1883	7.80	7.71
MacGowan, John K.	Dec. 19, 1874	June 20, 1881	8.43	9.02
Magill, Harry B.	May 25, 1872	Dec. 16, 1881	7.88	9.15
Mainwaring, William	Sept. 21, 1873	Dec. 19, 1881	8.34	8.85
Maloney, Jos. E.	Nov. 12, 1872	Jan. 3, 1882	7.28	8.88
Manson, Thomas	Oct. 10, 1873	Jan. 3, 1882	7.53	6.73
Marcus, Moses	Oct. 1, 1874	Dec. 30, 1882	7.65	9.09
Margne, Thomas H.	Aug. 25, 1873	Jan. 3, 1882	8.33	8.28
Marks, Robert G.	Jan. 13, 1875	Dec. 29, 1884	7.39	2.89
Marx, Henry F.	April 29, 1875	Jan. 9, 1885	8.21	7.29
Meade, Thomas A.	Nov. 22, 1872	Jan. 3, 1882	8.49	9.24
Merrylees, James	Sept. 9, 1873	Dec. 29, 1880	7.32	8.62
Meyers, Rowland	April 24, 1874	Feb. 24, 1883	7.67	3.65
Mitchell, John L.	Feb. 9, 1875	Sept. 20, 1884	6.91	8.87
Murphy, Patrick	Dec. 9, 1872	Sept. 15, 1880	8.87	7.87
Murray, Robert	Oct. 21, 1874	Sept. 20, 1882	6.96	5.21
Nace, Robert	Oct. 21, 1873	Jan. 3, 1882	7.99	7.11
Nagel, Jacob F.	Jan. 23, 1876	Feb. 17, 1885	7.82	9.66
Nattress, John	June 15, 1875	Feb. 21, 1885	8.68	8.15
Nattress, Wm. E.	Nov. 3, 1873	Dec. 28, 1881	8.21	9.60
Neavling, Henry E.	Jan. 3, 1875	Dec. 19, 1884	9.20	9.94
Neely, Frederick B.	Feb. 27, 1873	Jan. 14, 1882	8.18	9.38
Nichols, Arthur	Feb. 8, 1874	June 22, 1883	7.95	8.57
Nichols, Elmer	Aug. 18, 1875	June 3, 1884	7.54	6.67
Nuesslein, John A.	Feb. 17, 1875	Feb. 16, 1885	7.73	6.87
Osmond, Lawrence D.	June 22, 1874	Jan. 14, 1882	8.10	6.92
Pennypacker, H. E.	Dec. 17, 1873	Jan. 31, 1883	7.75	9.65
Pollard, Frank S.	Feb. 17, 1874	Jan. 3, 1882	7.71	8.04
Porter, Thomas G.	Aug. 31, 1875	Dec. 29, 1884	7.60	5.10
Price, Harry C.	Mar. 10, 1875	Dec. 27, 1884	8.75	9.28
Quereau, Harrison E.	June 25, 1875	Jan. 19, 1884	7.21	6.19
Reardon, George T.	May 13, 1873	Jan. 3, 1882	7.19	7.87
Reinard, Frank	June 11, 1873	Dec. 30, 1879	7.99	8.14
Ricot, Ferdinand	Aug. 22, 1874	Sept. 15, 1880	7.52	7.05
Rittenhouse, Charles W.	Oct. 7, 1874	Sept. 18, 1884	8.18	7.89
Rose, William	Feb. 27, 1876	June 6, 1883	7.36	6.34
Rowe, James M.	Jan. 31, 1874	Jan. 3, 1882	8.12	5.68
Ruhl, Anthony	Mar. 11, 1872	Jan. 3, 1882		
Schaeffer, Herman	Jan. 3, 1874	May 4, 1883	7.99	4.31
Schaffer, George	Jan. 8, 1872	Sept. 22, 1879	7.92	8.42
Scherer, Louis F.	Sept. 1, 1873	Jan. 3, 1882	7.36	8.48
Schlechtweg, William	Sept. 13, 1874	Jan. 17, 1884	7.33	6.57
Schneider, E. Albert	April 4, 1874	June 1, 1882	7.53	4.94
Schultz, Edward	May 6, 1874	July 3, 1883	7.95	8.75
Schultz, Frederick H.	Jan. 1, 1875	June 6, 1883	7.18	5.67
Scott, Edward	Feb. 7, 1875	April 30, 1881	7.73	4.74
Sellgman, Jacob A.	July 1, 1875	June 12, 1885	8.12	7.89
Servis, James H.	Feb. 28, 1874	Jan. 14, 1882	7.55	9.65
Shelley, Samuel M.	Dec. 18, 1875	Feb. 16, 1885	7.70	8.30

FOURTH SCHOOL.

Name.	Born.	Admitted.	Scholarship.	Conduct.
Silbert, George S.	Feb. 26, 1874	Sept. 20, 1882	6.45	6.00
Simpson, John W.	July 29, 1873	Jan. 3, 1882	7.21	6.91
Singer, George H.	Aug. 29, 1872	Jan. 14, 1882	7.51	9.01
Slusmon, Edward McG.	Feb. 4, 1874	Feb. 24, 1883	7.30	7.09
Smedley, John F.	April 22, 1874	Jan. 3, 1882	7.01	6.79
Smith, Frank	Aug. 29, 1874	June 1, 1882	7.51	8.63
Smith, Richard Penn	Oct. 13, 1875	June 3, 1884	7.44	5.19
Smith, Steward B.	Oct. 12, 1874	Sept. 20, 1882	7.44	7.32
Sopp, Ernest	Dec. 3, 1873	Sept. 20, 1882	7.82	9.70
Speed, Robert M.	Nov. 26, 1874	Dec. 27, 1883	7.05	5.29
Stapf, Frederick	Jan. 14, 1873	Jan. 3, 1882	8.09	9.94
Start, William A.	May 20, 1874	Jan. 14, 1882	7.85	9.72
Steicher, Herman	Nov. 3, 1875	June 3, 1884	7.81	6.63
Stiegeler, Michael	Nov. 18, 1874	June 3, 1884	7.89	8.30
Stoy, Harry	Nov. 3, 1876	Dec. 30, 1885	7.22	6.91
Sutherland, Alfred	July 14, 1875	June 10, 1884	7.55	6.26
Taggart, John W.	Feb. 18, 1873	Jan. 3, 1882	8.33	9.42
Taylor, Alton B.	Oct. 2, 1874	June 1, 1882	7.53	9.68
Teufel, Herman	Feb. 5, 1877	Jure 3, 1884	8.51	7.75
Thompson, William G.	Dec. 17, 1873	Jan. 14, 1882	7.95	5.26
Tompkins, John A.	June 13, 1874	Dec. 14, 1882	8.29	7.73
Trappe, William	July 27, 1873	Sept. 20, 1882	9.33	9.93
Uebelhaar, Geo. H.	May 2, 1873	Jan. 3, 1882	7.41	9.49
Ulmer, Harvey F.	Dec. 5, 1874	Feb. 24, 1883	7.81	8.11
Vance, David C.	July 28, 1875	June 3, 1884	6.89	4.83
Vinas, Frederick	Dec. 9, 1873	Sept. 20, 1882	7.47	5.37
Waugh, Matthew E.	July 2, 1872	Jan. 3, 1882	8.12	
Weinert, Charles	Jan. 25, 1874	Jan. 3, 1882	8.19	9.04
Weiss, Oscar	July 28, 1874	Jan. 25, 1882	8.70	9.50
Welsh, Luke P.	April 17, 1874	June 1, 1882	8.71	8.05
Wernicke, Ludwig	Jan. 25, 1874	June 1, 1882	8.36	9.34
Wike, Edgar	Nov. 10, 1875	Oct. 22, 1885	7.31	5.47
Wilcox, Franklin	Sept. 29, 1872	Dec. 23, 1881	8.52	9.05
Wilkins, Van Admiram	Oct. 25, 1872	Dec. 21, 1881	7.95	9.45
Williams, Orrin O.	Feb. 12, 1876	Dec. 19, 1884	7.72	7.26
Witt, Rudolph	Nov. 9, 1874	Feb. 24, 1883	8.19	5.44
Woods, George A.	Dec. 20, 1874	Feb. 6, 1884	8.57	8.66
Woodward, George	Aug. 12, 1874	Jan. 25, 1882	7.56	8.75
Wurst, Platt O.	June 14, 1872	Dec. 20, 1881	7.37	8.63

THIRD SCHOOL.

Name.	Born.	Admitted.	Scholarship.	Conduct.
Able, Clarence B.	May 11, 1876	Sept. 16, 1885	6.62	6.57

THIRD SCHOOL..

Name.	Born.	Admitted.	Scholarship.	Conduct.
Schnuck, Charles	April 13, 1876	Dec. 29, 1884	7.79	7.25
Schneider, Charles	Mar. 12, 1876	June 1, 1883	8.75	7.87
Schneider, George	May 2, 1874	Dec. 27, 1883	7.54	8.90
Scott, Harry	July 17, 1876	Dec. 27, 1883	7.45	4.34
Sedenger, Philip N.	July 2, 1877	Mar. 12, 1886	7.97	9.70
Sellers, Charles F.	Nov. 24, 1873	June 6, 1883	7.76	7.38
Seybert, Charles H.	April 16, 1879	Dec. 30, 1886	7.80	8.72
Shields, Charles F.	Jan. 2, 1877	Dec. 27, 1886	7.83	7.21
Shuman, Omar M.	Oct. 20, 1878	Dec. 31, 1886	8.04	9.05
Simms, William	Sept. 1, 1875	Dec. 29, 1884	7.46	6.79
Singer, Theodore R.	Aug. 17, 1876	May 28, 1883	8.02	9.70
Smith, Edward C.	April 10, 1875	June 3, 1884	8.12	6.75
Smith, Edgar A.	Sept. 2, 1879	Dec. 30, 1886	7.98	6.97
Smith, Emmanuel C.	Mar. 15, 1878	Dec. 21, 1886	8.04	9.05
Smith, F. Russell M.	Jan. 26, 1877	Dec. 29, 1885	8.07	6.04
Smith, George D.	June 24, 1876	June 2, 1885	6.91	7.48
Smith, Jacob S.	Mar. 17, 1877	Dec. 29, 1885	7.69	9.41
Smith, Kimber C.	Dec. 8, 1874	June 5, 1883	7.64	7.03
Smullen, William C.	June 14, 1876	May 31, 1886		
Spaeth, Augustus	Feb. 28, 1878	Dec. 27, 1886	8.10	8.75
Stanley, George E.	Aug. 20, 1875	June 3, 1884	7.80	4.37
Steelman, Abalom	May 10, 1874	June 1, 1883	6.69	8.80
Stevens, Philetus A.	Feb. 9, 1875	June 6, 1883	6.69	7.77
Stewart, Richard W.	Nov. 12, 1875	Oct. 30, 1885	6.93	6.93
Stockton, John A.	Jan. 1, 1876	June 6, 1883	6.96	4.61
Stott, Henry J.	Nov. 25, 1877	May 31, 1886	7.95	9.15
Straussheim, Harry	Nov. 8, 1875	Dec. 29, 1884	8.01	9.34
Strobel, Francis J.	Mar. 13, 1876	Mar. 12, 1886	7.56	5.26
Sweeney, Daniel	Aug. 19, 1877	Dec. 30, 1886	7.51	4.91
Sweeney, Matthew	April 12, 1878	Dec. 29, 1884	8.10	7.71
Taylor, James	Oct. 24, 1873	June 2, 1882		
Terhune, Robert S.	June 19, 1878	Sept. 16, 1886	8.63	6.58
Thels, Henry C.	April 18, 1877	Jan. 7, 1887	7.48	8.19
Thiddle, Thomas	Nov. 3, 1877	Dec. 31, 1886	7.16	9.43
Titreville, Ernest R.	June 3, 1877	Dec. 27, 1881	7.81	7.69
Trock, Lancaster T.	Mar. 4, 1877	Dec. 27, 1886	8.06	6.13
Tustin, John F.	Dec. 1, 1873	June 18, 1884	8.30	7.06
Tustin, William R.	Aug. 30, 1873	June 14, 1882		
Tyler, Charles C.	Sept. 15, 1877	June 3, 1884	7.83	8.40
Van Horn, David A.	Mar. 5, 1877	Jan. 9, 1886	6.84	4.85
Vickery, Jacob	Sept. 3, 1874	June 1, 1882	6.45	7.08
Vincent, Albert W.	Oct. 15, 1874	Dec. 27, 1883	7.06	7.29
Wagner, Albert D.	Mar. 27, 1877	Dec. 27, 1886	8.16	10.00
Wallace, Joseph H.	Mar. 1, 1874	Jan. 3, 1883	7.13	7.76
Wandress, Lloyd	Mar. 3, 1877	Jan. 7, 1886	8.18	7.48
Ward, Henry Kelly	Oct. 6, 1876	Mar. 18, 1886	7.53	5.75
Wehmeyer, John H.	Dec. 6, 1875	Sept. 23, 1880	6.94	9.50
Well, Samuel R.	Mar. 8, 1878	May 31, 1887	7.41	8.27
Welch, Harry	May 25, 1879	Dec. 27, 1886	7.88	5.86
Welden, Thomas	Sept. 11, 1871	June 20, 1881		

THIRD SCHOOL.

Name.	Born.	Admitted.	Scholarship.	Conduct.
Werts, John G. M.	May 22, 1877	May 31, 1886	8.19	9.46
Whiteman, George W.	Dec. 18, 1876	June 2, 1886	8.07	8.88
Wishler, Frederick	Dec. 20, 1875	Dec. 29, 1886	6.98	5.58
Williams, David T.	Nov. 25, 1877	Dec. 30, 1886	7.20	8.52
Williams, Hiram C.	April 4, 1874	July 9, 1883	7.47	6.68
Wilson, Francis T.	Sept. 17, 1875	June 10, 1884	7.13	8.04
Wilson, John H.	May 14, 1872	June 18, 1880		
Witahlre, Arthur	Sept. 7, 1876	June 8, 1885	7.34	9.01
Wissenger, Ernest C.	June 27, 1875	June 3, 1884	7.94	7.92
Witt, Frederick J.	June 26, 1876	Jan. 8, 1885	8.69	
Wolff, Charles S.	May 3, 1877	May 31, 1886	7.39	9.44
Wulf, John D.	Nov. 10, 1877	Dec. 27, 1886	6.90	9.16
Wort, Clarence M.	Dec. 1, 1876	Sept. 14, 1886	7.70	8.99
Wood, Thomas	May 13, 1878	Sept. 13, 1886	8.41	9.64
Woodside, Louis	Dec. 23, 1874	Dec. 30, 1882	7.11	6.05
Woodward, Elias	May 28, 1877	May 31, 1886	7.94	9.21
Wright, Richard P.	April 3, 1877	May 31, 1886	7.41	7.68
Wright, Samuel G.	Feb. 6, 1877	Oct. 13, 1883	8.30	8.13
Yenger, Joseph	Mar. 20, 1877	May 31, 1886	7.69	8.61
Yeager, Wilhelm G. F.	Mar. 24, 1875	Jun. 17, 1884	6.39	9.29
Yestrow, Eduard	Mar. 3, 1875	Dec. 29, 1884	7.44	6.26
Yost, Lehman	Sept. 2, 1877	Dec. 27, 1886	7.13	8.02
Young, Hugh F.	Jan. 14, 1875	June 6, 1883	7.35	6.98

SECOND SCHOOL.

Name.	Born.	Admitted.	Scholarship.	Conduct.
Addella, Claus M.	May 15, 1876	Dec. 29, 1884	6.73	4.99
Alexander, William	Aug. 18, 1873	Dec. 31, 1886	7.06	8.44
Alting, Jonathan W.	June 23, 1879	June 18, 1887	7.15	7.70
Anaya, Alfonso	Jan. 26, 1880	Mar. 2, 1886	8.56	9.30
Anderson, Samuel	Aug. 13, 1876	Mar. 31, 1886	7.74	7.80
Anderson, Thomas H.	Sept. 24, 1877	Dec. 29, 1886	7.08	7.76
Applegate, Chas. B.	Oct. 4, 1879	Dec. 30, 1886	8.17	8.57
Applegate, Edward D.	June 28, 1877	Mar. 22, 1886	7.19	8.94
Armitage, Wm. J.	June 14, 1877	May 31, 1886	7.52	8.54
Ashby, Geo. M.	Oct. 10, 1879	Dec. 30, 1886	7.69	8.54
Baird, Robert W.	Oct. 5, 1877	Jan. 9, 1884	7.58	6.50
Baker, Granville M.	Aug. 29, 1878	Dec. 27, 1886	7.95	8.03
Baker, John F.	Nov. 19, 1878	Dec. 28, 1887	8.40	8.67
Barlow, George	Oct. 13, 1878	Dec. 28, 1887	8.17	9.48
Bauer, Hugh	Mar. 23, 1878	Dec. 29, 1887	7.96	9.49
Bartel, Howard B.	April 30, 1877	Dec. 29, 1886	8.36	7.44
Barton, Joseph	Oct. 18, 1876	May 31, 1886	7.48	8.16
Batesman, William	Mar. 6, 1879	Dec. 29, 1888	7.04	5.86

SECOND SCHOOL.

Name.	Born.	Admitted.	Scholarship.	Conduct.
Bates, Howard	Aug. 19, 1877	May 31, 1887	7.88	8.25
Bauschdliker, Francis F.	July 5, 1875	June 2, 1885	7.89	7.81
Baxter, Ralph E.	Sept. 2, 1878	May 31, 1887	8.42	8.09
Bayne, George W. P.	Oct. 25, 1877	Sept. 14, 1886	7.74	8.91
Beck, George H.	Aug. 16, 1877	May 31, 1886	7.31	6.22
Becker, Leonard	July 22, 1877	Dec. 20, 1886	8.18	6.44
Bergholz, Frederick	July 1, 1878	Dec. 27, 1886	8.11	6.63
Bibighaus, Alexander J.	Feb. 21, 1879	Jan. 13, 1887	7.47	9.18
Bickel, Mahlon L.	July 5, 1879	Jan. 15, 1889	8.57	8.85
Birnbaum, Charles Henry	April 11, 1878	June 3, 1884	7.54	6.79
Blair, Joseph D.	Aug. 13, 1878	Dec. 29, 1887	8.26	5.74
Bodley, Lane P.	Dec. 2, 1879	Dec. 30, 1886	8.16	7.84
Bowman, Percy B.	June 10, 1877	Dec. 21, 1886	7.53	8.15
Bradley, Chas. E.	Mar. 9, 1879	Dec. 20, 1886	7.86	7.98
Brehm, Frederick	Oct. 23, 1877	Sept. 16, 1886	8.17	8.85
Brenchfield, George J.	June 11, 1879	Dec. 30, 1886	8.59	8.60
Brown, William L.	Sept. 18, 1879	Dec. 27, 1886	7.74	7.75
Browne, William C.	Mar. 30, 1877	Dec. 30, 1886	7.05	9.00
Browning, John F.	Mar. 26, 1877	Dec. 30, 1885	7.81	9.23
Bubb, Henry Darrah	June 2, 1878	Sept. 21, 1887	9.25	9.22
Buckley, Travis W.	Feb. 1, 1878	May 31, 1886	7.02	8.07
Burgess, Wilbur R.	July 23, 1878	Sept. 3, 1885	8.22	7.99
Butz, Walter H.	April 13, 1880	Dec. 28, 1887	8.36	9.21
Campbell, George T.	Oct. 15, 1878	Sept. 13, 1886	8.44	9.13
Cantwell, Frederick A.	Dec. 13, 1878	Dec. 29, 1887	8.05	9.83
Cantwell, Walter	June 22, 1876	Feb. 16, 1885	7.81	8.50
Carroll, Thomas W.	Jan. 17, 1879	Dec. 29, 1887	8.62	8.83
Chandler, Walter P.	April 18, 1879	Dec. 30, 1886	8.01	6.84
Charles, Daniel J.	Mar. 23, 1876	Dec. 19, 1884	6.78	7.25
Clash, George G.	April 8, 1880	Oct. 2, 1886	7.58	7.70
Coar, Herman	June 24, 1877	May 31, 1886	7.40	8.70
Coley, Clement	Mar. 4, 1873	Jan. 3, 1882	9.23	
Conly, George A.	May 13, 1878	June 2, 1887	8.32	7.47
Coon, Oscar	Feb. 18, 1878	May 31, 1886	6.01	8.24
Cooper, Lewis B.	June 4, 1879	Dec. 30, 1886	7.42	8.30
Corcoran, Daniel J.	Nov. 29, 1877	May 31, 1886	8.47	7.85
Costers, Louis	Sept. 8, 1878	Dec. 20, 1886	7.79	6.96
Craft, Albert H.	Dec. 21, 1879	May 31, 1887	8.90	7.17
Craven, Frank R.	Mar. 1877	Jan. 22, 1886	7.45	6.66
Crossett, James	June 29, 1878	Jan. 22, 1887	8.13	8.15
Cunningham, Charles A.	April 18, 1878	May 31, 1887	7.91	7.10
Curran, Edward	Feb. 16, 1876	June 1, 1882	6.98	8.81
Curran, John P.	Mar. 18, 1878	Sept. 14, 1886	7.44	7.84
Dalton, James J.	Oct. 2, 1877	Sept. 13, 1886	7.16	8.60
Danfield, Harvey L.	Jan. 7, 1879	May 31, 1888	8.98	8.65
David, J. Clement	April 8, 1879	Dec. 27, 1886	7.32	8.25
Davis, David C.	Aug. 23, 1878	Dec. 27, 1886	7.70	8.79
Davis, Samuel H.	Sept. 26, 1878	Dec. 27, 1886	7.75	9.35
Deal, Walter P.	Dec. 25, 1877	June 3, 1884	8.18	7.30
Dempsey, John E.	Nov. 10, 1877	May 31, 1886	7.83	3.51

SECOND SCHOOL.

Name.	Born.	Admitted.	Scholarship.	Conduct.
Dixon, Reginald B.	Oct. 23, 1876	July 21, 1886	8.10	7.06
Dixon, Ross Glen I.	Nov. 23, 1878	July 29, 1887	7.95	9.17
Dolde, John M.	Dec. 13, 1878	Dec. 20, 1886	8.33	7.79
Doran, Bernard	Jan. 13, 1878	Dec. 30, 1885	7.86	7.43
Dunton, George C.	Dec. 26, 1879	Jan. 5, 1886	8.08	8.08
Elliott, Joseph M.	Oct. 27, 1875	Dec. 29, 1884		8.30
Emory, Charles A.	May 5, 1877	Dec. 30, 1886	7.75	6.57
Erskine, Howard K.	April 15, 1875	Dec. 29, 1884	6.30	7.53
Erskine, Samuel	Feb. 15, 1879	Dec. 28, 1887	8.17	7.32
Evans, Howell C.	Sept. 2, 1877	June 11, 1886	7.50	6.36
Fallor, Parker	Feb. 17, 1877	Dec. 20, 1886	8.42	7.82
Famous, William P.	Aug. 27, 1878	Dec. 27, 1886	8.37	7.60
Faunce, Peter J.	June 15, 1878	Dec. 20, 1886	7.94	5.89
Fic, Lawrence C.	May 12, 1877	Dec. 27, 1886	8.61	9.32
Fie, William W.	Feb. 23, 1879	Dec. 27, 1886	7.62	8.48
Finnessey, Jas. Lewis	April 5, 1877	Dec. 20, 1886	8.73	7.36
Firth, Joseph	Oct. 16, 1878	May 31, 1888	9.47	10.00
Flew, Milton S.	June 11, 1879	Dec. 30, 1886	8.37	9.20
Foote, Frederick J.	Dec. 23, 1876	Dec. 9, 1886	7.62	8.07
Foote, Rob't	Dec. 23, 1876	Dec. 9, 1886	8.99	7.31
Foreman, William H.	Oct. 30, 1877	May 31, 1886	7.61	8.12
Fowler, Thomas	July 23, 1878	Dec. 21, 1886	8.61	7.83
Fox, Herbert W.	June 28, 1878	Dec. 30, 1886	8.15	7.18
Franz, John O.	Dec. 29, 1878	Dec. 27, 1886	7.75	9.57
Fromuth, Frederick G.	June 7, 1879	Dec. 30, 1886	7.87	8.98
Fury, Edward R.	Dec. 1, 1880	Dec. 28, 1887	8.27	8.68
Gallagher, Jas. W.	Sept. 4, 1877	Dec. 30, 1886	7.47	6.56
Garber, Clinton T.	Aug. 20, 1879	Dec. 30, 1886	7.33	9.36
Garman, Walter E.	Jan. 30, 1878	Dec. 27, 1886	8.16	7.80
Garrett, Howard C.	June 24, 1877	Dec. 21, 1886	7.81	8.57
Garrett, John R.	Mar. 29, 1879	Dec. 21, 1886	8.52	8.41
Gebhart, Charles W.	Aug. 2, 1873	Jan. 17, 1884	5.78	4.68
Gebhart, William H.	April 25, 1878	Dec. 3, 1886	7.51	8.11
Gilchrist, Walter	Sept. 5, 1878	Dec. 27, 1886	7.56	8.59
Gibbons, Sherwood	July 2, 1880	Jan. 7, 1888	8.79	9.48
Graham, Martin	Mar. 28, 1880	Dec. 30, 1886	8.13	8.98
Gray, John	June 7, 1879	Dec. 30, 1886	8.12	7.66
Grafenberg, John C. D.	Nov. 26, 1877	June 10, 1887	7.68	9.05
Griffiths, Guy	Jan. 15, 1877	Sept. 14, 1886	7.27	5.15
Grime, Harry C.	Mar. 11, 1878	Sept. 13, 1886	8.10	7.63
Grimley, James	July 30, 1877	Dec. 30, 1886	8.07	7.47
Hagenbuch, Jonah H.	Feb. 18, 1878	Sept. 13, 1886	7.35	9.28
Haggarty, Thos.	May 22, 1874	Dec. 29, 1886	6.72	9.35
Hall, Charles F. S.	Dec. 16, 1876	Oct. 23, 1885	7.95	8.52
Hancock, William C.	April 19, 1878	Dec. 21, 1886	8.49	7.03
Harder, George W.	Oct. 21, 1878	Dec. 27, 1886	8.07	8.66
Harrison, John S.	Sept. 27, 1876	Sept. 14, 1886	7.24	6.15
Harrison, William A.	Jan. 3, 1882	May 31, 1888	8.19	8.44
Hartfeld, Benj. H. B.	Mar. 26, 1880	Dec. 30, 1886	8.35	9.13
Hutton, Franklin F.	Sept. 4, 1878	Dec. 20, 1886	8.12	6.07

SECOND SCHOOL.

Name	Born.	Admitted.	Scholarship.	Conduct.
Hatton, William	Jan. 9, 1850	Dec. 30, 1886	8.39	7.29
Haydt, Harry	Jan. 8, 1877	Dec. 30, 1886	8.12	8.37
Hazzard, William R.	June 16, 1877	May 31, 1886	6.48	6.09
Heere, Charles L.	June 19, 1877	May 31, 1887	8.52	8.86

CLINIC Hours.—From 2 to 3 P. M. daily, (Sundays excepted,) at which time the Surgeons are in attendance for the examination and treatment of the patients presenting themselves.

The Clinics are opened to all regular Practitioners and Students of Medicine who desire to study the diseases of the eye.

WILLS HOSPITAL.

SURGEONS' REPORT FOR 1889.

THE Surgeons of the Wills Eye Hospital beg leave to present their report for the year ending December 31st, 1889.

The following are a few of the events we deem most worthy of being presented to your notice :

The establishment of a drug store in the Hospital, which was chronicled in last year's report, has more than fulfilled the expectations of its desirability, in the reduction of the annual drug bill. In no clinic is more careful and painstaking work done, and no clinic shows better results therefrom than the Wills Hospital. The Hospital practice, except in operation cases, is almost entirely among out-patients. If good work is to be carried on by the Surgeons in the out-patient rooms, the arrangements and management must be as carefully attended to as that of the in-patient wards. Above all things the waiting and consulting rooms should be separate ; for these reasons new rooms for the Dispensary service are urgently needed.

The overcrowding of the present apartments renders difficult all system, classification and the orderly quiet so necessary to the delicate process of optical examination, and are a hindrance alike to patient and surgeon.

In making a retrospect for the year, amid some causes for discouragement, one fact is very gratifying to the Surgeons, and that is that 147 operations for cataract were done during the year, which is a greater number than has ever been done before, with the exception of the year 1883.

Under the head of Anomalies of Refraction and Accommodation, 3,431 cases are noted, as against 3,069 last year. These simple facts represent some of the most laborious work of the Hospital, and, although surrounded by no brilliancy of operative detail, is really one of the most important items of the charitable work of the Hospital, in furnishing the humble workers of both sexes, in properly adjusted spectacles, the means of earning, in honest independence, their daily bread.

During the past year 10,207 persons applied for treatment, the largest number yet recorded in any one year, and 3,313 operations were performed.

In the Hospital are ample accommodations for one hundred patients. In the early part of the year sixty patients could find beds in the wards, but later the number was reduced to forty, owing to the lack of an expected appropriation from the State. This was a great draw-back to our usefulness, for we had often to turn worthy applicants from our doors. Of the number admitted to the Hospital nearly one-half were not from the City of Philadelphia, and we would earnestly urge the assistance of the State in the care of her disabled citizens.

The Surgeons desire to acknowledge the efficient services of the House Surgeon, the Clinical Clerks, the Steward and Matron, whose care and attention have contributed to the results of the year.

ANNUAL REPORT OF HOUSE SURGEON.

Philadelphia, January 1, 1890.

House Surgeon's Report for the Year of 1889.

Number of patients in the House at last	
Annual Report, January 1, 1889:—Males, 42;	
Females, 20;	Total, 61
Number admitted during the year 1889:—	
Males, 301; Females, 170;	" 471

Respectfully submitted,

GEO. E. KIRKPATRICK,
Superintendent City Trusts.

PHILADELPHIA, December 31, 1889.

AUDITOR'S CERTIFICATE.

I hereby certify that I have audited the accounts of the GIRARD ESTATE and of the MINOR TRUSTS, of the City of Philadelphia, for the year ending December 31, 1889, and found the same to be correct, and correctly summarized in the foregoing reports of the Superintendent. (See pages 24-33 and 111-125).

JOHN HEINS,
Public Accountant and Auditor.

508 Walnut St., Philada., February 24, 1890.
